

Damian Davila

Over 20 years of leadership, 25 years of hands-on tech in large corporate and small business environments. Experience in financial services, travel, CRM, commercial real estate, and restaurant industries.

Key successes in delivering enterprise-class internet, wireless/mobile technologies, and CRM/customer care. Highly experienced in the out-tasking/out-sourcing and SaaS models. Built highly performing teams of 2 to 200 members.

WORK EXPERIENCE

Founder — Moventis, LLC, Miramar, FL

JANUARY 2009 - PRESENT

Moventis is a web, mobile, and custom software consultancy. As founder and principal, I am responsible for finding the best talent across the globe, and ensuring they deliver top solutions to our customers. Just a few examples:

- Developed back of house accounting application for high volume restaurant.
- Developed tablet app to facilitate Bottle Service Sales in a nightclub environment
- Implemented an online classroom featuring a Virtual Learning Environment, shared whiteboarding, and video conferencing for a distance learning program.
- Developed a commercial real estate web portal to compete with industry-leaders
- Installed and customized a niche dating website and mobile app

Vice President — American Marketing Media, Miramar, FL

SEPTEMBER 2013 - MARCH 2015

Full-service marketing, SEO, and social media management firm. I was responsible for IT infrastructure and delivering all client technology solutions: web sites, mobile apps, and custom software.

Key successes: delivering niche solutions for national and global brands such as Fossil watches and Carib specialty foods.

Director, Emerging Technologies — American Express, Weston, FL

JANUARY 2003 - DECEMBER 2009

Led software project delivery for several internal business units globally. Charged with technical product management of mobile/wireless applications and e-communications. Additionally led unit-wide production support team (tier 2 and 3), drove Six Sigma/reengineering program, and owned portfolio-wide PMO.
Successfully delivered an average of 30 new capabilities or enhancements per year.

Director, Consumer Card Tech. — American Express, Weston, FL

MAY 1999 - DECEMBER 2002

Led software project delivery for several internal business units. Charged with technical product management of consumer card servicing online, and e-commerce.

Technical Lead — American Express, Ft. Lauderdale, FL

MAY 1999 - DECEMBER 2002

954-465-7537

Powered By

launch_code

Led development of distributed applications for high-volume call center and back office environments.

- Architected and implemented a large document imaging and workflow system that included installing a very large nationally distributed image capture platform.
- Architected and implemented the first-ever call center application on a PC platform which provided process automation savings, reduced training due to an intuitive user interface, and vastly improved call management metrics.
